What do your kids do for mental education?

Chess has proven to be an invaluable educational aide and teaches children analytical skills that are applicable to many other intellectual pursuits. Bay Area Chess program offers a fun environment to develop mental skills for students at all levels. A typical class consists of instruction followed by a practice game. Students may be divided in groups based on ability and experience so that each student will receive instruction appropriate for his/her skill level.

Bay Area Chess is a non-profit company serving the Bay Area since 2005.
